Strength

- Administering.
- Humor.
- Innovation.
- Self taught developer.

Objective

I have 4.2 years of experience in web development. Eager for opportunities in a dynamic, challenging environment to leverage my skills for personal growth and contribute to organizational success. Self-motivated IT professional with expertise in JavaScript, TypeScript, Angular JS, React JS, Vue JS, Node JS CSS, and mobile-responsive website development. Seeking a role that aligns with my passion for technology and allows me to make meaningful contributions to both my career and the organization.

Experience

DIAT0Z India Pvt Ltd - Bengaluru 05/2019 to 05/2022

- Senior Web Developer.
- Develop responsive and efficient web applications.
- Frameworks used: React.js, Vue.js, Angular 8.

SISA Information Security Pvt. Ltd. - Bengaluru 09/2022 to 07/2023

- Senior Associate Developer.
- Proficient in deciphering business logic intricacies to craft optimal web applications. Spearheaded the development of SISA Assistant using Angular 15 and .NET technologies.

Project Summary

LIFEData (2019/08 - 2020/07)

- Technologies used:** Vue Js, Vuex, Bootstrap, JQuery.
- Description:** Contributed as a junior developer, engaging with the team to learn and implement innovative features(OAuth, Dialogflow). Implemented card drag-and-drop functionality, empowering users to build personalized chatbots for their businesses.

OES(Onboarding Entertainment Solution)(2020/08 - 2020/12)

- Technologies used:** Vue Js, Vuex, Bootstrap, JQuery.
- Description:** Implemented Google Maps to display live locations of multiple transports using customized marker icons. Developed various modules, customized sidebars, and implemented role management for a comprehensive and tailored user experience.

Sentinel(2020/12 - 2021/05)

- Technologies used:** Vue js, Bootstrap, flexmonster, Vuex, JQuery.
- Description:** Contributed to a streamlined user experience by optimizing data handling and visualization components. Developing and integrating charts and Flexmonster library for efficient table views.

ERP(enterprise resource planning)(2021/01 - 2021/06)

- Technologies used:** Angular 8, Angular Material, Bootstrap, JQuery.
- Description:** Collaborated as an Angular developer, enhancing website security by closely connecting with backend developers. Actively engaged with the team to identify and resolve blockers, ensuring a seamless development process.

TXF(The X Future)(2021/04 - currently working)

- Technologies used:** Angular 11, Angular Material, Nodejs, MongoDB, Pubnub, Bootstrap, JQuery.
- Description:** As a senior developer, I specialized in crafting user interfaces, ensuring a seamless and intuitive experience. Additionally, I played a key role in resolving critical bugs and provided valuable support as a dedicated team member.

SISA Assistant (09/2022) - (07/2023)

- Technologies used:** Angular 15, Angular Material, .Net, Material UI, Ant Design.
- Description:** I played a pivotal role in the development and implementation of the SISA Assistant project, taking charge of role-based management and contributing to various modules and dashboard pages.
