Education

B.tech Information teachnology
Hindusthan college of engineering and technology coimbatore
2015 - 2019

Master's in Computer Science
Maharishi International University, Fairfield, IA.
2023 - Currently studing

Strength

👥 Administering.

😄 Humor.

🧠 Innovation.

✊ Self taught developer.

Objective

I have 4.2 years of experience in web development. Eager for opportunities in a dynamic, challenging environment to leverage my skills for personal growth and contribute to organizational success. Self-motivated IT professional with expertise in JavaScript, TypeScript, Angular JS, React JS, Vue JS, Node JS CSS, and mobile-responsive website development. Seeking a role that aligns with my passion for technology and allows me to make meaningful contributions to both my career and the organization.

Experience

DIATOZ India Pvt Ltd - Bengaluru 05/2019 to 05/2022
- Senior Web Developer.
- Develop responsive and efficient web applications.
- Frameworks used: React.js, Vue.js, Angular 8.

SISA Information Security Pvt. Ltd. - Bengaluru 09/2022 to 07/2023
- Senior Associate Developer.
- Proficient in deciphering business logic intricacies to craft optimal web applications. Spearheaded the development of SISA Assistant using Angular 15 and .NET technologies.

Project Summary

LIFEData (2019/08 - 2020/07)
- **Technologies used:** Vue Js, Vuex, Bootstrap, JQuery.
- **Description:** Contributed as a junior developer, engaging with the team to learn and implement innovative features(OAuth, Dialogflow). Implemented card drag-and-drop functionality with JQuery, empowering users to build personalized chatbots for their businesses.

Sentinel(2020/12 - 2021/05)
- **Technologies used:** Vue js, Bootstrap, flexmonster, Vuex, jQuery.
- **Description:** Contributed to a streamlined user experience by optimizing data handling and visualization components. Skillfully managed large data sets from the backend, implementing lazy loading in the UI using Vue.js. Developing and integrating charts and Flexmonster library for efficient table views.

TXF(The X Future)(04/2021 - 07/2022)
- **Technologies used:** Angular 11, Angular Material, Nodejs, MongoDB, Pubnub, Bootstrap, jQuery, ClickUp(Project Management Tool).
- **Description:** As a senior developer, I specialized in crafting user interfaces, ensuring a seamless and intuitive experience. Additionally, I served as a Scrum Master in this project, actively engaging with team members to address their blockers and facilitate a smooth development process.

SISA Assistant (09/2022) - (07/2023)
- **Technologies used:** Angular 15, Angular Material, .Net, Material UI, Ant Design, JIRA(Agile Project Management Tool).
- **Description:** I played a pivotal role in the development and implementation of the SISA Assistant project, taking charge of role-based management and contributing to various modules and dashboard pages.

Library Management System (University Project) (11/2023) - (12/2023)
- **Technologies used:** OOP in Java, GUI, Local DB.
- **Description:** Designed a Java-based library management system with object-oriented programming principles, featuring a graphical user interface (GUI).

Property Management System (University Project) (01/2024) - (02/2024)
- **Technologies used:** Java, Spring boot, React JS, MySQL, Docker, Postgres.
- **Description:** Utilized React.js to build the user interface and integrated the functionality to favorite and unfavorite properties seamlessly using Spring Boot on the backend.
